

## STANDARD HOOK KIT

Versatile and durable, the Standard Hook is the go-to solution for reliable solar panel installation on tiled roofs.

The Standard Hook is specifically engineered to provide a secure and efficient mounting solution for solar panels on traditional tiled roofs. Manufactured from high-quality materials, it offers excellent mechanical strength and outstanding resistance to environmental factors such as corrosion, UV exposure, and temperature fluctuations. Compatible with a wide range of tile types — flat tiles, barrel tiles, and interlocking tiles — the Standard Hook ensures a stable attachment without compromising the integrity of the roofing materials. Its versatile design allows for quick and precise installation, reducing installation time.

Thanks to its robustness and durability, the Standard Hook is a reliable choice for photovoltaic panel installation on tiled roofs, meeting the demands of industry professionals

### KIT

Standard Hook

Wood screw

T-Slot Hammer nut

### DIMENSIONS

| PART NAME               | DIMENSIONS                                   |
|-------------------------|----------------------------------------------|
| Standard Hook (1pc)     | 180x55mm, maximum height is 200mm            |
| Wood Screw (4pcs)       | Length 80mm                                  |
| T Slot Hammer Nut (1pc) | Head of T bolt 23x10x4mm<br>Bolt size: M8x25 |

## TECHNICAL INFORMATION

**Material :** Stainless Steel AISI 304 for Hook and T-Slot

**Color :** Raw
